SUMMARY

Software Engineering student with experience in full-stack web development, IT operations, and cybersecurity. Skilled in Java, Python, Django, PostgreSQL, Git, and Linux, with experience developing internal web apps and supporting campus systems.

EDUCATION

B.S. Software Engineering

Expected Dec. 2028

San Jose State University – San Jose, CA

Incoming junior transfer, beginning Fall 2026

Associate in Science for Transfer (AS-T), Computer Science

May 2026

Allan Hancock College – Santa Maria, CA

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript, HTML/CSS,

Frameworks/Tools: Django, Git/GitHub, Docker, Linux/CLI, PostgreSQL

Concepts: Data Structures, Algorithms, Object-Oriented Programming, Databases, Debugging

Security/Systems: Network Security, Endpoint Monitoring, Vulnerability Scanning, Sophos, Deep Freeze, CMS

PROJECTS

College Corps Program Management System | Django, Python, PostgreSQL, HTML/CSS/JavaScript

- Built a Django-based internal web application to support College Corps program operations, including participant tracking, application review, placement matching, requirement tracking, and more.
- Implemented data management and staff-facing interfaces to streamline program logistics and improve visibility into program requirements, student progress, and other documentation.
- Designed features for user workflows, records management, and administrative efficiency for campus staff.

Syllabus Generator Web Tool | Django, Python, Document Automation, HTML/CSS/JavaScript

- Developed a Django web application that generates structured syllabus documents for instructors using course data.
- Implemented Python-based document automation to populate and format syllabi templates.
- Deployed the application for web access, transforming a manual document creation process into a reusable tool.

Programming Projects | Java, Python, Django

- Built academic and personal projects including encryption tools, file search utilities, payroll calculators, live Q&A applications, algorithm-based programs, and more.
- Applied object-oriented programming, file handling, debugging, and problem-solving concepts across multiple Java and Python projects.

EMPLOYMENT HISTORY

Cyber Security Intern

Feb. 2026 – May 2026

Allan Hancock College: Information Technology

Santa Maria, CA

- Developed and presented cybersecurity awareness resources promoting security best practices to students.
- Reviewed security alerts and assisted with endpoint monitoring and vulnerability assessments.
- Organized data center inventory, decommissioned outdated systems, and verified infrastructure operations.
- Updated campus websites using CMS tools, correcting content and resolving website issues.

Student Worker

Oct. 2022 – Aug. 2026

Allan Hancock College: Career Center

Santa Maria, CA

- Guided students with resumes, interview preparation, and job search strategies to support career readiness.
- Supported the College Corps Program by assisting with fellow logistics, documentation, and event coordination.
- Scheduled and checked in students for counseling and career appointments, ensuring smooth office operations.

Interim Career Center Program Specialist: College Corps

Sept. 2024 – Dec. 2024

Allan Hancock College: Career Center

Santa Maria, CA

- Supported daily program operations by coordinating site visits, resolve placing issues, and managing fellow logistics.
- Tracked and reviewed fellow hours for compliance and reporting accuracy.
- Organized monthly training sessions and recognition events to support program development.
- Designed outreach materials, including flyers, graphics, and digital content to promote program visibility.

Student Worker: Special Projects

Aug. 2025 – Oct. 2025

Allan Hancock College: VP Academic Affairs Office

- Developed a faculty-requested syllabus web application while working with college leadership.

AWARDS & LEADERSHIP
